Dear all,

Time is flying and it's time to put in place the necessary preparatory measures for the presentation of your projects this week!

### The schedule:

1. **Dry-run on Tuesday, July 30 from 6pm to 6:30pm.** Please have an almost-finished version by then. You will then present to the team and your classmates over Zoom and get the first round of feedback.
2. **Next practice will be determined after Tuesday**

### Presentation Format:

1. **6 minutes Max, 2 minutes for Q&A.** We will make sure that you stick to the timing allowed.
2. Please do not plan on showing the code. The demo is the most important. Use the story approach from where you started to what you achieved.

### Presentation Slides Content:

1. **Introduction, Title and Date.**
2. **Your profile and background** information.
3. Quick presentation of the company (*if applicable*).
4. Description of the **Problem and Solution**.
5. **Live Demo.**
6. **Technologies** used.
7. **Outlook** - The future of the project (Features to be implemented for example)
8. Last Slide: Name and **contact information** with a LinkedIn profile picture from all of you.

### Blog:

1. As you know from inside out your project, please prepare a document with a full description, documentation about the app, motivation, features, milestones and the future of the project by latest **Thursday 1 August**.

#### 1. The structure of the blog as follows:

1. **Current Problem**
2. **Solution**
3. **Description**
4. **Technical Features**
5. **Tech Stack**
6. **Outlook**

2. In addition, please add your best **4-5 screenshots** you can take from the best part or those you are proud from your app, **logos** (if apply) to be added to our website.
